

## WE HAVE BEEN TRAINING OFFICERS SINCE 1752

---

We offer our students something extraordinary: an education as a leader and officer. In three years you will complete the Bachelor programme "Military Leadership" and the Career Officer Course. Afterwards you will receive your Bachelor's degree and become a 2nd lieutenant. As a graduate of the Theresan Military Academy you will be appreciated as a trainer, manager and soldier.

The Theresan Military Academy is an educational institution ...

... **for officers:** The Military Academy is the "home" of the officers of the Austrian Armed Forces. We are experts for basic officer training and advanced training at international level. This is why cadets from foreign nations also study with us.

... **for civilians:** Besides soldiers, civilians of the Austrian Armed Forces also complete part of their advanced training at the Theresian Military Academy.

... **for pupils:** With the Federal Commercial College for Leadership and Security, the Military Academy also offers the opportunity to obtain the Matura [A-levels].

... **for recruits:** At the Military Academy, recruits receive four weeks of basic training before they go into service.
