

A vision statement is a document that states the current and future objectives of an organization. The vision statement is intended as a guide to help the organization make decisions that align with its philosophy and declared set of goals. It can be thought of as a roadmap to where the company wants to be within a certain timeframe.

A vision statement isn't a pie-in-the-sky document that collects the shared fantasies of the organization and then is filed away. It's a living document that is referred to as a lodestar to lead a company to its next innovation.
