Thanatos Advanced Stealth Drone Design Breaks Cover

Kratos says it hopes to have a contract related to Thanatos by next year from an undisclosed customer that could be the US Air Force.

Army gets first high-power microwave prototype to counter drone swarms

Epirus has completed initial government acceptance testing of its high-power microwave prototype meant to counter drone swarms, the company said

Uncrewed Submarine Will Launch, Recover Drone That Can Swim, Fly

Uncrewed submarines loaded with 'multi-domain' drones could offer a new dimension for hunting for enemy naval forces and mines, and more.

MUST READ! – UKRAINE & ISRAEL Special

Chinese Strategists Evaluate the Use of 'Kamikaze' Drones in the Russia-Ukraine War

Both Russia and Ukraine have used loitering munitions successfully in the current war—and China is watching closely. A recent article titled “The Little Pests that Patrol the Battlefield” in the Chinese military periodical “Weapons” enumerates the lessons that Chinese strategists have learned.

How Israeli Drones Will Lead The Attack On Gaza Tunnels

A tunnel is about the worst possible place to fly a drone. Israel has developed capabilities, in particular the Legion-X system made by Elbit Systems. Elbit claims that Legion-X is designed for subterranean warfare.
